

# Videx Data Store

The Next Generation of Videx Data Collection Software for use with IBR9000, CyberBadge, and Future Readers

## A Myriad of Functions

- Store Log Files downloaded from CyberBadges and iBR9000s.
- Store and view communication and error logs from Videx Data Link.
- Name iButtons, RFID tags (i.e.cards) and Barcodes for easier identification.
- Filter Audit Trail data for creation of printable customized reports.
- Export Audit Trail data as customizable files in multiple formats for use in external programs.
- Import Reader, Downloader, and Scanned Item IDs and Names to simplify setup of new items.
- Allow network communication between Videx Data Link and other Videx Data Store installations to allow for centralized storage and viewing of data.

## A Packaged Solution

Videx Data Store is a software package consisting of Videx Data Link, the Videx Data Store application, MS SQL Database and IIS Automation web service.

Videx Data Store - Audit Trail
